

Author details

The Scopus Author Identifier assigns a unique number to groups of documents written by the same author via an algorithm that matches authorship based on a certain criteria. If a document cannot be confidently matched with an author identifier, it is grouped separately. In this case, you may see more than 1 entry for the same author.

Scalarising of optimisation criteria proposal for multi-objective optimisation of ship hull structure by evolutionary algorithm	Sekulski, Z.	2015	Maritime Technology and Engineering - Proceedings of MARTECH 2014: 2nd International Conference on Maritime Technology and Engineering	0
---	--------------	------	--	---

[LinkSource](#)

Design methods	Collette, M., Bronsart, R., Chen, Y., (...), Ventura, M., Zanic, V.	2015	Proceedings of the 19th International Ship and Offshore Structures Congress, ISSC 2015	0
----------------	---	------	--	---

[LinkSource](#)

Ship hull structural multiobjective optimization by evolutionary algorithm	Sekulski, Z.	2014	Journal of Ship Research	4
--	--------------	------	--------------------------	---

[LinkSource](#)

Multi-objective optimisation of ship hull structure by genetic algorithm with combined fitness function	Sekulski, Z.	2013	Analysis and Design of Marine Structures - Proceedings of the 4th International Conference on Marine Structures, MARSTRUCT 2013	3
---	--------------	------	---	---

[LinkSource](#)

Optimisation algorithm for the profit from operation of a barge train versus settings of the main engine during inland navigation in varying water resistance conditions (part 1)	Sekulski, Z.	2011	Archives of Transport	0
---	--------------	------	-----------------------	---

[LinkSource](#)

[Full Text](#)

Optimisation algorithm for the profit from operation of a barge train versus settings of the main engine during inland navigation in varying water resistance conditions (part 2)	Sekulski, Z.	2011	Archives of Transport	0
---	--------------	------	-----------------------	---

[LinkSource](#)

Multi-objective optimization of high speed vehicle-passenger catamaran by genetic algorithm	Sekulski, Z.	2011	Polish Maritime Research	2
---	--------------	------	--------------------------	---

[Open Access](#)

[LinkSource](#)

[Full Text](#)

Multi-objective topology and size optimization of high-speed vehicle-passenger catamaran structure by genetic algorithm	Sekulski, Z.	2010	Marine Structures	13
---	--------------	------	-------------------	----

Author History

Publication range: 1997 - 2015

References: [382](#)
